

Faster, Easier, Cheaper with More Applications Available

The Right Equipment First Time - no more to buy

Our most popular kit with both StencilPro™ mesh grades, frames, squeegee and all the equipment needed for printing white, black, green, blue brown in fact you can print any coloured fabric you like - it's all there right out of the pack to start printing straight away.

Print Standard and Opaque Instantly

Do other kits provide you table adhesive and height adjusters to achieve solid results onto black? Unlike other brands of 'starter' kits, EZIscreen gives you the right equipment, all the hints, all the tips and all the trade secrets straight away, no more items to buy.

No Emulsion Coating

With EZIscreen there is no coating emulsions, simply expose your designs instantly under sunlight = faster, easier and cheaper.

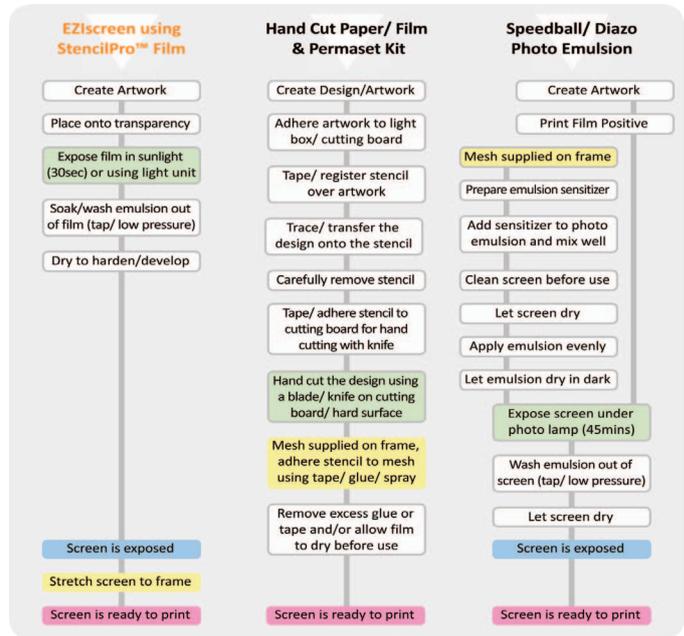

Printing Lessons Included

Learn the common mistakes and how to avoid them to begin printing like a professional straight away. Both our light and dark printing lessons onto white and black fabric to have you printing like a professional.
